Towards 6G: Presenting the 6Genesis Flagship Program

Prof. Dr. Marcos Katz
University of Oulu

Freitag, der 21.12.2018, 9⁰⁰ Uhr
Cauerstr. 7, Seminarraum 01.021 (E 1.12)

Diskussionsleitung: Prof. Dr.-Ing. Wolfgang Gerstacker

In this talk the 6Genesis Flagship Program is presented. This is a large-scale research initiative funded by Finnish government through Academy of Finland. The eight-year program, coordinated by University of Oulu, is worth €250m. The ultimate aim of the 6Genesis FP is to create a wireless smart society and ecosystem. The presentation will discuss in general the research paths to be followed. As a part of this research project, our recent activities in visible light communications will be also presented and discussed.
